# NANO HEALTH AND HYGIENE PRODUCTS

As the Cleapet family, we are proud to crown our efforts for our pet friends with the rewards. We support the nature, human and animal ecosystem not only by producing vegan products, but also with the plantable seed cards we offer to you.

As 100% female-employed company, we enable our women to acquire a profession with the support program for women entrepreneurs throughout Turkey.

We are proud to be part of both integrative and charitable organizations with our donations of treatment support products to “Köpeğimle Kamptayız” and various animal care areas. We are also honored to contribute to the national economy by exporting to 12 countries.

## **LETTER OF RECOMMENDATION**

Veterinarian Azmi Elhan Atik,

co-founder of Empati Akademi Animal Hospital, and 35 doctors who are experts in their field recommend the use of Cleapet Nano Health Products with patented nano silver formula to protect your pets from disease and to support the treatment of skin lesions.

Cleapet products purify your pets from pathogens such as bacteria and viruses and provide protection against contamination.

Azmi Elhan ATİK

## USAGE AREA

---

It is used for the solution of fungus, scabies, eczema, allergy, wound treatment, dandruff, excessive hair loss, odor, eye and ear discharge, paw crack, nasal crack, tear stain, bad breath, tooth tartar, gingivitis and gum problems.

## COMPOSITION FEATURES

---

99.956%(50%) 7722-84-1 Hydrogen Peroxide.

0.044% (V.Blik) Nano Silver 7440-22-45pmm, they are products containing zealite aqua solution.

It does not contain alcohol, perfume, paraben, SLS, cortisone, Iodine and antibiotic. Colorless and Odorless.

## FEATURES

---

It is a VEGAN product that has international validity and is certified to be nature, human and animal friendly. It is produced with nano technology and contains 1,000,000 nano silver ions in 1mm. It does not cause heavy metal accumulation in the body and is easily excreted by the kidneys. Thanks to its silver ions, it has a destructive effect on harmful bacteria and viruses. It does not leave any residue after application. It is suitable for puppies, pregnant and adult pets.

## GENERAL SUGGESTIONS

---

It is recommended not to be used together with antibiotic-containing internal and external treatment products. Nano Silver sees antibiotics as a foreign agents like bacteria and viruses and destroys them. It eliminates the effect of antibiotics. For this reason, if antibiotic treatment is applied, Nano Health products should be used 2 days after the antibiotic treatment is finished.
